None

Manufacturing accounts for a billable overage of 5 %. Due to Raw Material price volatility quotes are valid for 30 days. PDF or Physical Proofs are recommended for matching customer colour targets. Most orders ship within 10 business days for Rollstock and 15 business days for Pouches AFTER final artwork approved and payment (if a Prepaid account).

All Prepaid invoices will include an appropriate charge for freight and 5% for overage. Should the delivered quantity on an SKU be below the 5% overage charged, a credit note will be issued to be used at a later date. Account invoices will be billed at actual quantities delivered up to the 10% overage limit.

Freight will be charged on Account invoices at actual cost. Refer to the detailed [Terms and Conditions](#) for further detail.

Freight FOB Origin.
